

AN AWARD-WINNING  
TREATMENT FOR SCARS,  
WRINKLES & FINE LINES

SILC  SKIN

# WHAT IS SILCSKIN?

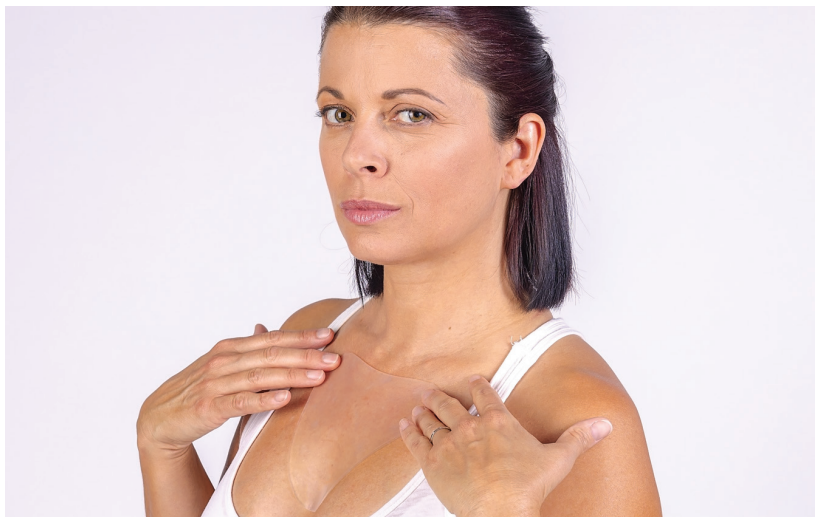

SilcSkin is a company dedicated to reducing the appearance of wrinkles. We have created products made out of 100% medical grade silicone designed to treat wrinkles easily, effectively, and safely. When worn, the pressure provided by the SilcSkin silicone pads stimulates collagen and cell growth and increases blood flow helping improve skin tone. Silicone hydrates the skin by drawing the skin's natural moisture to the surface, plumping out the existing wrinkles. Doctors have used medical grade silicone to treat scarring and burns, and the SilcSkin method essentially treats wrinkles and scars the same way. Prolonged use of SilcSkin anti-wrinkle pads will help return skin to a more youthful and supple appearance by softening fine lines and wrinkles and flattening scars.

SilcSkin's 100% medical grade silicone pads reduce the appearance of stretch marks, scars, keloids, and wrinkles. It's a proven alternative to injections, laser treatments, and surgery. Our pads can be applied almost anywhere on the body, including the stomach, thighs, hips, and the buttocks.

# CHEST WRINKLES

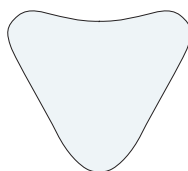

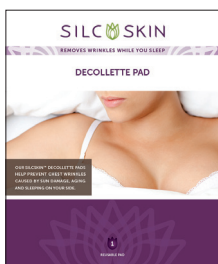

Our Decollette Pads reduce the appearance of chest wrinkles caused by sleeping on your side, aging, and sun damage. Poor diet and dehydration also play a role in the formation of wrinkles and fine lines. SilcSkin Decollette Pads have been specifically designed to fit the area between your breasts. They increase hydration and stimulate collagen development, smoothing and plumping out the skin.

# NECK WRINKLES

Neck wrinkles form due to genetics and years of neglect. Vertical and horizontal lines can form on the neck, and of these, the vertical wrinkles are the most difficult to treat. They're deep and develop over a long period. SilcSkin Collette pads help in the fight to reduce the appearance of vertical and horizontal neck wrinkles. They can be used with the Decollette Pad to treat wrinkles around the clavicle area.

# FACIAL WRINKLES

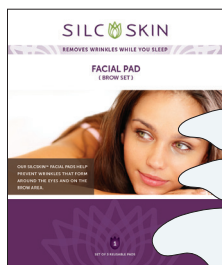

Facial wrinkles can affect the brow and the eye and mouth areas. These wrinkles can range from fine lines to deep creases and furrows, and most occur in the areas of the face where you make repetitive facial expressions. For instance, forehead wrinkles are caused by furrowing the brow, or crow's feet are caused by squinting your eyes and smiling. SilcSkin silicone facial pads are shaped specifically for the unique areas of your face.

# EYE WRINKLES

Crow's feet, puffy eyes, wrinkles and crepey skin occur around the eyes for several reasons. The skin around the eyes is very thin and is particularly susceptible to the aging process. Sun exposure, smoking, dehydration, poor diet, and just plain old genetics also play a role. SilcSkin's Eye Pads are designed to fit precisely underneath and around your eyes, targeting those areas where you need your skin to be plump and firm.

# HAND WRINKLES

As you age, your skin loses its elasticity, and along with other areas of your body, your hands also start developing wrinkles. Dehydration, overwashing, harsh chemicals, a bad diet and/or lifestyle, and sun exposure are the main reasons for wrinkles and crepey skin. We've taken the science from our medical grade silicone pads and developed our Hand & Body Treatment to help reduce the appearance of wrinkles, fine lines, and crepey skin.

**INGREDIENTS:** WATER (AQUA), DIMETHICONE, CETYL PEG / PPG-10/1 DIMETHICONE, CETEARYL DIMETHICONE, HYDROGENATED POLYISOBUTENE, SODIUM HYALURONAT CROSSPOLMENR, PROPYLENE GLYCOL, GLYCERIN, BUTYLENE GLYCOL, SODIUM CHLORIDE, TOCOPHERYL ACETATE, MICROCRYSTALLINE WAS (CERA MICROCRISTALLINA) PHENOXYETHANOL.

**MADE IN THE U.S.A.**

# SCARS

Silicone sheeting has been used to treat scarring for over 30 years, and works by increasing the hydration of the stratum corneum and facilitates the regulation of fibroblast production and reduction in collagen production. This results in a softer and flatter scar. Our pads are beneficial for c-section scars and stretch marks, and can be used through the stages of your pregnancy.

# CLEANSER

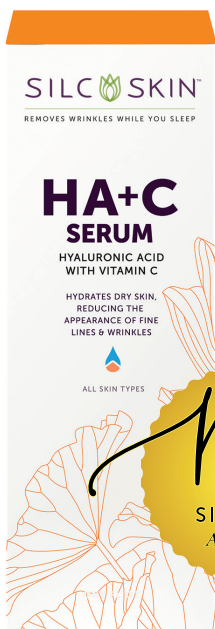

Our Cleanser is formulated to be used on your face and body to prepare your skin for the application of our anti-wrinkle pads. The Cleanser can also be used to clean the pads after use. It's also highly effective in removing even the toughest waterproof makeup. The Cleanser is exceptionally clean-rinsing and won't leave any residue, which is essential in prepping the skin to wear the SilcSkin anti-wrinkle pads. It's fragrance-free, dye-free, and hypo-allergenic.

**INGREDIENTS:** WATER (AQUA), SODIUM LAUROAMPHOACETATE, COCAMIDOPROPYL BENTAINE, SODIUM LAUROYL METHYL ISETHIONATE, GLYCERIN, SODIUM CHLORIDE, BUTYLENE GLYCOL, SODIUM METHYL OLEOYL TAURATE, SODIUM COCOYL ISETHIONATE, CAPRYLYL GLYCOL, CHLORPHENESIN, PHENOXYETHANOL.

**MADE IN THE U.S.A.**

# HA+C SERUM

Hyaluronic acid is a sugar that is found naturally in the body. It plays a critical role in skin hydration because hyaluronic acid provides moisture to areas of the skin, eyes, and joints. SilcSkin is developing a hyaluronic acid serum coupled with Vitamin C that promotes collagen production and thickens the dermis, reducing the appearance of wrinkles and fine lines. Our serum will be available soon.

# OUR STORY

As early as 2003, SilcSkin pioneered the first use of medical-grade silicone as anti-wrinkle pads. During her career as a special effects makeup artist — using silicone-based prosthetics in her work — CEO Camille Calvet experimented with silicone to treat wrinkles.

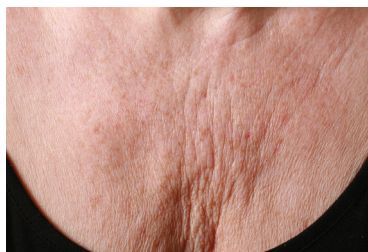

One day, as she removed the prosthetics from an actor, she noticed that the skin exposed to the silicone looked softer and smoother. She found out that medical-grade silicone was being used in the medical industry to treat keloid scarring.

Further innovation brought about the prototype — the chest pad — which would eventually lead to SilcSkin's Decollette Pad™, the best-selling anti-wrinkle pad.

Early in the evolution of SilcSkin, Camille found that using overseas manufacturing methods led to unreliable and sometimes unsafe results. Adhesives and other elements mixed with the silicone produced skin lesions, itchiness, and burning sensations. With this in mind, Camille manufactured all her products in the U.S.A, where she would have instant access to quality control. SilcSkin uses a platinum curing process in the manufacture of their pads, which results in residue-free silicone and a stronger, longer-lasting pad.

# TESTIMONIALS

*"These pads are MIRACULOUS!!! SIMPLY AMAZING!!!  
I HIGHLY recommend them! My décollette looks like a 40-45  
year olds!"*

**MARY K.**

*"Best hand cream ever!! Using for the past week and already  
notice a difference!"*

**JOAN Z.**

*"I tell everyone I know about your products. You have an  
awesome product. You also have excellent customer service, and  
speedy delivery. I use to have an issue paying for delivery. I  
am so very happy with your product and I would be more than  
happy to be a walking advertisement.*

*I just wanted to reach out and give you & your product an A+  
for being one of the very few businesses that have consistency on  
lock down, during our lock down. You offer excellent quality of  
products, reasonable prices, speedy service and most importantly  
excellent customer service.*

*Blessings to you and all your future endeavors. May you have  
a very prosperous future, good health and much happiness.  
Blessings to you."*

**MARY E.**

*"Hi! Just wanted to say that I absolutely love your product!  
I have been using your chest pad since I was around 44.  
I'm now 50 and I do not have a single line on my chest and  
I used to have deep canyons because I am a side sleeper!"*

**JANET K.**

*"You guys are the best. Don't know what I would do without you.  
Probably have to get rid of 75% of my closet with open front.  
I once tried another kind while traveling and it was terrible and  
left me with a rash exactly the shape of the pad. Never again!"*

**YANA L.**

# MEDIA

*"These pads are making my skin look and feel amazing!!!  
Thank you for this SilcSkin!"*

**ALLISON JANNEY \ ACADEMY AWARD WINNING ACTRESS**

*I, TONYA, THE ADDAMS FAMILY, THE GIRL ON THE TRAIN, AMERICAN BEAUTY*

*"We use SilcSkin pads to treat wrinkles on the face, neck and chest. Many of our patients see results immediately after one night of use. But for best results, we recommend using SilcSkin as part of an ongoing anti-aging skin routine. SilcSkin's medical grade silicone pad technology draws collagen and moisture to the surface of the skin while protecting the face and chest from creasing while sleeping. This combination helps to smooth fine lines and prevent new wrinkles from forming."*

**DR. AVA MD DERMATOLOGY PRACTICE, BEVERLY HILLS**

*"(SilcSkin)... fantastic product that sells itself! Many of my patients already are aware of them and buy every visit. Best treatment for chest wrinkles and is a fantastic alternative to injection for crow's feet and furrow lines. They work in just days completely removing lines formed at night from positional compression and smooth out expression lines while you sleep. Great product line!"*
